

HELP TEST BUDDY

Persistent chat is live. We need real people to try it.

WHAT TO DO

Scan the code. Talk to Buddy. Come back later. See what carries through.

WHAT TO REPORT

Forgot context, wrong memory, over-connected patterns, strange tone, loops, or anything unsafe.

WHAT NOT TO SHARE

No passwords, private keys, emergencies, financial secrets, or confidential third-party material.

SCAN TO JOIN

GitHub login unlocks the persistent Buddy Thread. Logged-out visitors can still ask one-shot questions.

NOT A SEARCH BOX. A TEST SURFACE FOR AI MEMORY, CONTEXT, AND WEIRDNESS.
