

You're invited to test Buddy.

Buddy is entering a new testing period for persistent conversation. We are looking for people willing to talk to him, return later, and tell us where the system feels useful, strange, broken, or genuinely different.

Tester checklist

- Ask a real question.
- Come back later and continue.
- Notice what Buddy remembers.
- Use Report weird behavior.
- Tell us what felt different.

Do not submit passwords, private keys, emergencies, financial secrets, or anything you do not want reviewed by AIIT.

SCAN TO TALK

GitHub login unlocks the persistent Buddy Thread. Logged-out Ask Buddy remains available.

At the heart of this site:

We are testing what AI can offer the world beyond cute pictures: memory, continuity, coherence, and honest human feedback.
